

## Список трудов

С.С. Лукашова и В.В. Батуро, представленных на конкурс на присуждение Премии СПбГУ в категории «За вклад в науку молодых исследователей».

1. M.E. Akopyan, V.V. Baturо, S.S. Lukashov, S.A. Poretsky, A.M. Pravilov, Dipole moment functions of the iodine  $D 2_g - A 2_u$ ,  $D0^+_u - a'0^+_g$ ,  $D0^+_u - X0^+_g$ , and  $X0^+_g - B0^+_u$ , transitions. J. Phys. B: Atom. Molec. and Optic. Phys. **44** 205101-9 (2011).
2. M.E. Akopyan, V.V. Baturо, S.S. Lukashov, S.A. Poretsky, A.M. Pravilov, Non-adiabatic transitions from  $I_2(E0^+_g$  and  $D0^+_u)$  states induced by collisions with  $M = I_2(X0^+_g)$  and  $H_2O$ . J. Chem. Phys. **136** 234302 -1-10 (2012).
3. M.E. Akopyan, V.V. Baturо, S.S. Lukashov, S.A. Poretsky and A.M. Pravilov, Spectroscopic constants and potential energy curve of iodine weakly bound  $0^+_g$  state correlating with  $I(^2P_{1/2}) + I(^2P_{1/2})$  dissociation limit, J. Phys. B: At. Mol. Opt. Phys. 46 (2013) 055101
4. M.E. Akopyan, V.V. Baturо, S.S. Lukashov, S.A. Poretsky, A.M. Pravilov, N. Teschmit, Cross – sections and dipole moments of the  $I_2(a1_g, a'0^+_g$  and  $0^+_g, 1_u(bb) \leftarrow B0^+_u, \nu_B=18 - 21, J_B)$  transitions at fundamental harmonic of Nd:YAG laser, J. Phys. B: At. Mol. Opt. Phys. 47 (2014) 055101
